

Through the Eye of the Needle

A Post-Advance Somatic Experiencing® Workshop

Peter A. Levine Ph.D

Tiburon, CA ~ Oct 29-31, 2010

18 CE's for CBBS and NBCC (\$15 additional)

In the USA over 29 million patients utilize powerful dissociative and amnesic agents...“general anesthesia”. Some individuals experience states of death from which they are revived. In fact, some of the deepest and seemingly most intractable trauma symptoms occur with clients who become “stuck” in these altered states of consciousness. Yet these same near death experiences (NDE's) hold the extraordinary potential for deep positive and enduring personal spiritual transformation. All traumas involve an encounter with threat, and hence, a touch with death.

This workshop is the next step to enlarge your range of competency in order to guide your client through this perilous landscape. Participants will be taught the theoretical framework for understanding altered states and near death encounters and how to:

- access and liberate problematic fixations
- develop and refine perceptual skills and practical tools
- resolve difficult somatic symptoms
- facilitate authentic spiritual experiences
- address these delicate states utilizing table touch work (experiential)

God of the traumatized, grant Your empathetic, all understanding comfort of Your beloved and innocent children all over the world who have suffered the unspeakable terror of anesthesia awareness. Hold with gentle firmness those who cannot express what happened to them or how traumatic their experience was and is. ~ Prayer for Anesthesia Awareness Network

\$640 if paid/post marked Aug 28th, \$700 if paid/post marked Sept 28th or after. The class is limited to 50 students. **To register** mail check made out to Andrea Smith and this form to: 980 Hall Street, San Carlos, CA 94070 and email andrea@easethebody.com to let me know you've done so. I will confirm you are officially registered once payment is received. (You'll hear from me after 9/1). Logistical information will be on www.traumahealing.com soon.
